In 1982

PROMOTIECOMMISSIE

Promotors: Prof. J. J. Zwaginga, Prof. J. Vandenbroucke

Copromotor: Dr. J. G. van der Bom

Overige leden: Prof. A. Brand

Prof. C. E. van der Schoot, Sanquin, Amsterdam

Dr. J. Zimring, Puget Sound Blood Centre, Seattle

The work described in this thesis was performed at the department of Clinical Transfusion Research, Sanquin Research, Leiden and the Department of Clinical Epidemiology, Leiden University Medical Center, Leiden, the Netherlands. The research was fully funded by Sanquin Blood Supply, division Research as part of a full PhD project.

TABLE OF CONTENTS

Chapter 1	Introduction	7
Chapter 2	Risk Factors for Alloimmunization after red blood Cell Transfusions (R-FACT): a case referent study <i>BMJ Open. May 2012;2(3)</i>	13
Chapter 3	Red blood cell alloimmunization and number of red blood cell transfusions <i>Vox Sang. 2012 Feb;102(2)</i>	29
Chapter 4	Effect of storage of red blood cells on alloimmunization <i>Transfusion 2013 Mar; (Epub)</i>	41
Chapter 5	Intensive red cell transfusions and risk of alloimmunization <i>Accepted- 30.04.2013, Transfusion</i>	53
Chapter 6	Immunosuppressant use and alloimmunization against red blood cell transfusions <i>Manuscript in preparation</i>	67
Chapter 7	Causal inference from prediction research: Erroneous assumptions in transfusion medicine research <i>Transfusion Medicine Reviews 2013 Mar. (Epub)</i>	81
Chapter 8	General discussion	97
Addendum	Short summary	115
	Samenvatting (Dutch summary)	117
	Acknowledgements (Dankwoord)	119
	Curriculum Vitae	121
