Acknowledgments

I would like to thank everybody who inspired me and supported me during my scientific journey in the past years. Special thanks go to my colleagues and good friends: Montse Barcena and Raimond Ravelli aka RaRa. Thank you guys for all those great discussions and chitchats during our lunch breaks and thank you for being my paranymphs today!

I'd like to take this opportunity to thank Elisa, Anna, Tanja, Gazizah and Svetlana for being my forever super best friends and for not giving up on me in spite of our irregular get-togethers. ;-)

My friends and colleagues from Tox- Di Zi and Louise- thanks for all the good musical times! I hope we will continue our journey with the *Bandofscience* (or was it the "We really need to practice more"-band) ☺

I'd like to thank my parents and my sister Sanja for always being there for me! Mama, tata i sejo hvala vam na vašoj ogromnoj podršci i bezuslovnoj ljubavi i brizi. Vi ste definitivno najbolji roditelji i sestra na svijetu!!!

Mijn liefde Serge, het is erg moeilijk, als niet onmogelijk, om iemand te bedanken voor iets zo waardevol als dat wat jij mij al deze jaren hebt gegeven! Ik heb zo veel van je geleerd en ben zo blij met jou! ☺

Sandra
