CONTENTS

Chapter 1	General Introduction	1
Chapter 2	Distribution and clustering of <i>Oesophagostomum bifurcum</i> and hookworm infections in Northern Ghana	23
Chapter 3	<i>Oesophagostomum bifurcum</i> -induced nodular pathology in a highly endemic area of Northern Ghana	41
Chapter 4	Summary of ultrasonic findings of <i>Oesophagostomum bifurcum</i> -induced nodular lesions in northern Ghana	53
Chapter 5	The short-term impact of albendazole treatment on <i>Oesophagostomum bifurcum</i> and hookworm infections in northern Ghana	67
Chapter 6	Impact of repeated mass treatment on human <i>Oesophagostomum</i> and hookworm infections in Northern Ghana	77
Chapter 7	Mass treatment with albendazole reduces the prevalence and severity of <i>Oesophagostomum</i> induced nodular pathology in northern Ghana	91
Chapter 8	Annual mass treatment with albendazole might eliminate human oesophagostomiasis from the endemic focus in northern Ghana	103
Chapter 9	General Discussion	111
