Contents

1 Introduction	9
1.1 Research design	10
2 Neanderthal Biology	13
2.1 Introduction	13
2.2 Neanderthal evolution	13
2.3 Neanderthal distribution patterns	16
2.4 Neanderthal anatomy and adaptation	19
2.5 Neanderthal brains	21
2.6 Neanderthal dietary niche and its implications	23
2.7 Neanderthal lives	24
2.8 Concluding remarks	27
3 Neanderthal Archaeology	29
3.1 Introduction	29
3.2 Neanderthal mobility and the study of foraging behaviour	29
3.3 Neanderthal archaeozoology	32
3.3.1 Introduction	32
3.3.2 The hunting vs. scavenging debate	32
3.3.3 Specialised hunting of ungulates	33
3.3.4 Neanderthals and megafauna	35
3.3.5 Central places: Sites exhibiting the full suite of Neanderthal foraging strategies?	37
3.3.6 Broad spectrum revolution, division of labour	42
3.3.7 Summary and conclusion	45
3.4 Material culture	46
3.5 Other aspects of Neanderthal archaeology	51
3.6 Summary and Conclusion	52
4 Optimal foraging models and Neanderthal archaeology	55
4.1 Introduction	55
4.2 General assumptions and criticism	55
4.3 An example of an OFT model: The diet breadth model	58
4.4 Applications of diet breadth in the study of the Middle Palaeolithic	60
4.5 On reconstructing the model's parameters	61
4.6 Possible confounding factors in the archaeological record	67
4.7 Modelling Neanderthal diet breadth	69
4.8 Modelling hyena diet breadth	71
4.9 Summary and conclusion	72
5 Biache-Saint-Vaast	75
5.1 Introduction	75
5.2 The site	75
5.3 Dating	76
5.4 Stratigraphy and archaeological horizons	77
5.5 The stone artefacts	79
5.6 The bone assemblage	81
5.7 The environment	90

5.8 Applying OFT to Biache-Saint-Vaast	92
5.9 Discussion	99
5.10 Conclusion	100
6 Taubach	103
6.1 Introduction	103
6.2 The site	104
6.3 Dating	104
6.4 The archaeological finds	108
6.5 The bone collection	109
6.6 The environment	113
6.7 Applying OFT to Taubach	118
6.8 Discussion	124
6.9 Conclusion	126
7 Hyena foraging	127
7.1 Introduction	127
7.2 Hyena ecology	128
7.3 Hyena sites	130
7.4 Expectations for the study of Pleistocene hyenas	132
7.5 Case-studies	132
7.5.1 Lunel-Viel	132
7.5.2 Camiac	137
7.6 Discussion	139
7.7 Conclusion	141
8 Discussion	145
8.1 Application of the diet breadth model to archaeological data	145
8.2 Reconstructing the model's variables	146
8.3 Modelling Neanderthals	149
8.4 This study	150
8.5 Application of OFT to Biache-Saint-Vaast and Taubach	151
8.6 The analysis in context	156
9 Conclusion	159
10 References	161
Dutch Summary	189
Acknowledgements	197
Curriculum vitae	199
