newts at different temporal and spatial
scales

Proefschrift
ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus Prof. Mr. P. F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op woensdag 10 maart
klokke 16:15 uur

door

Gonçalo Espregueira Themudo

geboren te Vila Nova de Gaia, Portugal, in 1979

Promotiecomissie

- Promotor: Prof. Dr. E. Gittenberger (Universiteit Leiden)
- Co-promotor: Dr. J. W. Arntzen (Nationaal Natuurhistorisch Museum *Naturalis*, Leiden)
- Referent: Prof. Dr. S. B. J. Menken (IBED, Universiteit van Amsterdam)
- Overige leden: Prof. Dr. P.M. Brakefield (Universiteit Leiden)
Prof. Dr. C.J. ten Cate (Universiteit Leiden)
Dr. J. A. Godoy (Estación Biológica Doñana, CSIC, Sevilla, Spain)

Aos meus pais

Contents

	Nederlands samenvatting	
CHAPTER 1	Introduction and Summary	1
CHAPTER 2	The phylogeny of crested newts (<i>Triturus cristatus</i> superspecies): nuclear and mitochondrial genetic characters suggest a hard polytomy, in line with the paleogeography of the centre of origin. <i>Arntzen, J.W., B. Wielstra & G. Espregueira Themudo</i>	17
CHAPTER 3	A combination of techniques proves useful for the development of nuclear genes for the newt genus <i>Triturus</i> <i>Espregueira Themudo, G., W. Babik & J. W. Arntzen</i>	45
CHAPTER 4	Multiple nuclear and mitochondrial genes resolve the branching order of a rapid radiation of crested newts (<i>Triturus</i> , Salamandridae) <i>Espregueira Themudo, G., B. Wielstra & J. W. Arntzen</i>	55
CHAPTER 5	Newts in space: Geography helps in the distinction between gene flow and incomplete lineage sorting <i>Espregueira Themudo, G., A. Bickham-Baird & J.W. Arntzen</i>	79
CHAPTER 6	Current gene flow across a newt hybrid zone follows local ecological conditions <i>Espregueira Themudo, G. & J. W. Arntzen</i>	95
CHAPTER 7	Environmental parameters that determine species geographical range limits as a matter of time and space. <i>Arntzen, J. W. & G. Espregueira Themudo</i>	121
CHAPTER 8	Molecular identification of marbled newts and a justification of species status for <i>Triturus marmoratus</i> and <i>T. pygmaeus</i> <i>Espregueira Themudo, G. & J. W. Arntzen</i>	137
CHAPTER 9	Newts under siege: range expansion of <i>Triturus pygmaeus</i> isolates populations of its sister species <i>Espregueira Themudo, G. & J. W. Arntzen</i>	157
	Acknowledgments	177
	<i>Curriculum Vitae</i>	178
