**Comprehensive extraction and NMR-based metabolomics:
Novel approaches to natural products lead finding in drug
discovery**

PROEFSCHRIFT

Ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus Prof. Mr. P. F. Van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 9 Juni 2011
klokke 13:45 uur

door

Nancy Dewi Yuliana
Geboren te Tasikmalaya, West Java, Indonesia
in 1970

Promotiecommissie

Promotor	Prof. Dr. Robert Verpoorte
Co-promotors	Dr. Young Hae Choi Dr. Henrie Korthout
Referent	Prof. Dr. Renger F. Witkamp (Wageningen University, The Netherlands)
Overige Leiden	Prof. Dr. Carel J. ten Cate Prof. Dr. Peter Klinkhamer

To Amira and Khansa

The cover image describes the importance of natural products, represented by *Betula pubescens* (white birch), as a drugs source.

ISBN: 978-90-8570-762-2

Printed by Wöhrmann Print Service, the Netherlands

2011, Nancy Dewi Yuliana

Contents

	General introduction	1
Chapter 1	Herbal medicine for obesity treatment: A review	7
Chapter 2	Screening of traditional medicinal plants and selected Asian spices for anti obesity-related bioactivities	77
Chapter 3	Adenosine A1 receptor binding activity of methoxy-flavonoids from <i>Orthosiphon stamineus</i> Benth.	91
Chapter 4	Metabolomics for bioactivity assessment of natural products	101
Chapter 5	Identification of possible compounds possessing adenosine A1 receptor binding activity in the leaves of <i>Orthosiphon stamineus</i> using TLC and multivariate data analysis	125
Chapter 6	Comprehensive extraction: a novel tool to provide chemical diversity for metabolomics-based lead finding studies	135
Chapter 7	Comprehensive extraction integrated with NMR metabolomics as a new way of bioactivity guided identification of biologically active compounds: compounds binding to adenosine A1 receptor from <i>Orthosiphon stamineus</i> Benth. leaves	151
Chapter 8	Comprehensive extraction integrated with NMR metabolomics as a new way of bioactivity guided identification of biologically active compounds: compounds binding to adenosine A1 receptor from <i>Morus alba</i> L. stembark	171
Chapter 9	Concluding remarks and perspectives	183
	Summary	187
	Samenvatting	191
	References	197
	Acknowledgements	215
	Curriculum vitae	217
	List of publications	219
