

African Postal Heritage

APH Paper Nr 15, part 3

Ton Dietz

NATAL: POSTMARKS E-H

Version January 2017

Introduction

Postage stamps and related objects are miniature communication tools, and they tell a story about cultural and political identities and about artistic forms of identity expressions. They are part of the world's material heritage, and part of history. Ever more of this postal heritage becomes available online, published by stamp collectors' organizations, auction houses, commercial stamp shops, online catalogues, and individual collectors. Virtually collecting postage stamps and postal history has recently become a possibility. These working papers about Africa are examples of what can be done. But they are work-in-progress! Everyone who would like to contribute, by sending corrections, additions, and new area studies can do so by sending an email message to the APH editor: Ton Dietz (dietzaj@asc.leidenuniv.nl). You are welcome!

The district is also filled with sugar cane plantations from the outskirts of the town into the surrounding villages, animals and the most extraordinary bird types. Eshowe 28s58 31e29

Prior to 1898 part of Zululand, see there.

Current information: Eshowe, is the oldest town of European settlement in Zululand. Eshowe's name is said to be inspired by the sound of wind blowing through the more than 4 km² of the indigenous Dhlinda Forest, the most important and striking feature of the town. Although the name is most likely to be derived from the Zulu word for the xysmalobium shrubs, showe or shongwe.

Today Eshowe is a market town, with a 100 km radius catchment area, two shopping centres, a main bus station serving the hinterland, a major hospital, and several schools”.

General Burger Lager

<http://www.postmarks.co.za/images/General%20Burger%201900.jpg>: "GENERAL BURGER LAGER. 1900 to 1900; General Burger's lager was at Mpuke Pass west of Glencoe. He was positioned here in the Biggarsberg Mountains after the Boer retreat from Ladysmith"

Schalk Willem Burger (6 September 1852 – 5 December 1918) was a South African military leader, lawyer, politician, and statesman who was acting President of the South African Republic from 1900 to 1902, whilst

Paul Kruger was in exile. [He] served in a number of military conflicts such as the Sekhukhune Wars of 1876, and later during the First Boer War of 1881, he served as acting field cornet. He was elected as commandant of the Lydenburg Commando in 1885. When the Second Boer War started, he served as commandant-general in a number of military conflicts, including the battle of Spion Kop and battle of Modder River on 30 October 1899. As a politician, he was described as "enlightened and shrewd" and it was reported that he rivaled Paul Kruger in his influence over his countrymen. After the Battle of Spion Kop, due to illness, he withdrew from the fighting and pursued his political career once more. He was elected to the Volksraad (House of Assembly) in 1887, later serving as Chairman. He served as Vice President under President Paul Kruger and later succeeded Kruger as State President, after Kruger had left for Europe. During the "Krigsraad" (military council / tribunal) in May 1901, he advocated a cessation of hostilities, but his proposal was strongly opposed by President Marthinus Theunis Steyn of the Orange Free State. Burger remained president until the Treaty of Vereeniging on 31 May 1902. He died in 1918 at Goedgedacht, near Krugerspos".

shortlived campaign. In 1907 the Natal Government issued a warrant for the arrest of King Dinizulu
for crimes, including treason, allegedly committed during the Bambata Rebellion. A large portion of
the Natal Militia (188 Officers and 1928 other ranks) were mobilized to support the Natal Police in
executing the arrest. Dinizulu surrendered himself and the Militia were disbanded within a month.
Dinizulu was sentenced to 4 years in jail. Literature records only 10 items of mail from this campaign
