Title: Contact-induced change in Dolgan : an investigation into the role of linguistic data for the reconstruction of a people's (pre)history

Issue Date: 2013-09-26

CURRICULUM VITAE

Eugénie Stapert was born in 1981 in The Hague in the Netherlands. She studied General Linguistics, Russian Language and Cultural Anthropology at the University of Amsterdam, where she received her M.A. in General Linguistics with distinction in 2005. Starting in 2006 she joined the University of Manchester to participate in a linguistic research project, and in 2008 she was accepted as a doctoral student at the Max Planck Institute for Evolutionary Anthropology in Leipzig, Germany. Here she conducted her PhD research as a member of the Max Planck Research Group for Comparative Population Linguistics.
