prof. dr. J.J. van Lankveld (Open Universiteit)

A minimalist, light gray line drawing of a person's neck and shoulder area, positioned on the left side of the page. The drawing consists of a few simple lines defining the contours of the neck, shoulder, and upper arm. The background is a light, textured gray. In the bottom right corner, there is a large, solid, light gray circle.

Contents

Chapter 1	General introduction	8
Part I	Sexual distress and related needs after treatment	14
Chapter 2	Sexual distress and associated factors among cervical cancer survivors: A cross-sectional multi-centre observational study	16
Chapter 3	Cervical cancer survivors' and partners' experiences with sexual dysfunction and psychosexual support	30
Part II	Prevention of treatment-induced vaginal changes	46
Chapter 4	A controlled study on vaginal blood flow during sexual arousal among early stage cervical cancer survivors treated with conventional radical or nerve-sparing surgery with or without radiotherapy	48
Chapter 5	Sexual rehabilitation after pelvic radiotherapy and vaginal dilator use: Consensus using the Delphi method	60
Chapter 6	Qualitative accounts of patients' determinants of vaginal dilator use after pelvic radiotherapy	76
Part III	Developing a sexual rehabilitation intervention for patients treated with radiotherapy	90
Chapter 7	A nurse-led sexual rehabilitation programme after radiotherapy for gynaecological cancer	92
Chapter 8	General Discussion	112
