**Iminosugars as Glucosylceramide Processing  
Enzymes Inhibitors:  
Design, Synthesis and Evaluation**

PROEFSCHRIFT

Ter verkrijging van  
de graad van Doctor aan de Universiteit Leiden,  
op gezag van Rector Magnificus Prof. mr. C.J.J.M. Stolker,  
volgens het besluit van het College voor Promoties  
te verdedigen op woensdag 13 december 2017  
Klokke 12:30 uur

door

Bing Liu  
Geboren te Puyang, China in 1989

## Promotiecommissie

Promotor: Prof. dr. H. S. Overkleeft

Co-promotor: Dr. R. J. B. H. N. van den Berg

Overige leden: Prof. dr. G. A. van der Marel  
Prof. dr. J.M.F.G. Aerts  
Prof. dr R. J. Pieters (Universiteit Utrecht)  
Prof. dr. C. A. A. van Boeckel  
Dr. M.E. Artola Perez de Azanza  
Dr. T. Wennekes (Universiteit Utrecht)

# Table of Contents

## Chapter 1

|                             |   |
|-----------------------------|---|
| <i>General Introduction</i> | 7 |
|-----------------------------|---|

## Chapter 2

|                                                                                                        |    |
|--------------------------------------------------------------------------------------------------------|----|
| <i>Synthesis of Deoxynojirimycin and its Substituted Analogues:<br/>Highlights from the Literature</i> | 14 |
|--------------------------------------------------------------------------------------------------------|----|

## Chapter 3

|                                                     |    |
|-----------------------------------------------------|----|
| <i>Synthesis of Glycosylated 1-Deoxynojirimycin</i> | 27 |
|-----------------------------------------------------|----|

## Chapter 4

|                                                                                           |    |
|-------------------------------------------------------------------------------------------|----|
| <i>Discovery of N-alkyl Deoxynojirimycin Derivatives<br/>as Potential GBA2 Inhibitors</i> | 57 |
|-------------------------------------------------------------------------------------------|----|

## Chapter 5

|                                                                   |    |
|-------------------------------------------------------------------|----|
| <i>Biphenyl-L-ido DNJ Derivatives as Dual GCS/GBA2 Inhibitors</i> | 86 |
|-------------------------------------------------------------------|----|

## Chapter 6

|                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|
| <i>Synthesis and Biological Evaluation of N-substituted<br/><math>\alpha</math>-Geminal Bis-hydroxymethyl Piperidine Iminosugars</i> | 102 |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|

## **Chapter 7**

***Summary, Work in Progress and Future Prospects*** **138**

**Chinese Summary 中文小结** **175**

**List of Publications** **177**

**Curriculum Vitae** **178**
