Title: Personalised pharmacotherapy in paediatric epilepsy : the path to rational drug and dose selection

Issue Date: 2017-11-29

PERSONALISED PHARMACOTHERAPY IN PAEDIATRIC EPILEPSY: THE PATH TO RATIONAL DRUG AND DOSE SELECTION

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden
op gezag van Rector Magnificus prof. mr. C.J.J.M. Stolker
volgens besluit van het College voor Promoties
te verdedigen op woensdag 29 november 2017
klokke 10:00 uur

door

Sven Christiaan van Dijkman

geboren te Amsterdam, Nederland
in 1984

Promotor	Prof. Dr. M. Danhof	Universiteit Leiden
Co-promotor	Prof. Dr. O.E. Della Pasqua	University College London
Promotiecommissie	Prof. Dr. H. Irth, voorzitter	Universiteit Leiden
	Prof. Dr. J.A. Bouwstra, secretaris	Universiteit Leiden
	Prof. Dr. J.W. Sander	University College London
	Prof. Dr. E. Perucca	Università di Pavia
	Prof. Dr. R.A.A. Mathôt	Universiteit van Amsterdam
	Prof. Dr. C.A.J. Knibbe	Universiteit Leiden
	Prof. Dr. H.J. Guchelaar	Universiteit Leiden

TABLE OF CONTENTS

Section I	General Introduction	
Chapter 1	Pharmacotherapy in pediatric epilepsy: from trial and error to rational drug and dose selection – a long way to go	9
Chapter 2	Scope and intent of investigations	51
Section II	Knowledge integration	
Chapter 3	Pharmacokinetic and pharmacodynamic models for anti-epileptic drugs in adults, children and neonates	75
Section III	Model-based dosing algorithms	
Chapter 4	Pharmacokinetic interactions and dosing rationale for anti-epileptic drugs in adults and children	127
Chapter 5	Individualised dosing algorithms and therapeutic monitoring for anti-epileptic drugs	155
Section IV	Evidence generation and synthesis in epilepsy trials	
Chapter 6	Impact of age-related factors on the pharmacokinetics of lamotrigine and implications for the dose rationale in epilepsy patients	187
Chapter 7	Exposure-response relationships of lamotrigine in partial onset vs. primary generalised tonic-clonic seizures in adults	217
Chapter 8	Exposure-response relationship and dose rationale for lamotrigine in children aged 1-24 months	237
Section V	Conclusions and perspectives	
Chapter 9	Conclusions and Future Perspectives	257
Chapter 10	Appendices	
	Nederlandse samenvatting	283
	Curriculum Vitae	295
	List of publications	297
