Title: Take it personal! Genetic differences in G protein-coupled receptors as studied with label-free technology

Issue Date: 2017-12-07

The background features several decorative geometric patterns. In the top right and bottom left corners, there are complex, multi-pointed star shapes formed by overlapping lines. In the top left and bottom right corners, there are smaller, similar star shapes. Additionally, there are two large, intricate star shapes in the center-left and center-right areas, and a large, central star shape in the middle. The overall design is symmetrical and uses a light blue color on a dark blue background.

TAKE IT PERSONAL!

Genetic differences in G protein-coupled receptors as studied with label-free technology

BY JULIA HILLGER
