<b>Chapter 1</b>	<b>General Introduction and scope of the thesis</b>	<b>10</b>
<b>1.1 Migraine</b>		<b>10</b>
1.1.1 Migraine epidemiology and socioeconomic impact		10
1.1.2 Migraine criteria and characteristics of the migraine attack		10
1.1.3 Migraine pathophysiology		12
1.1.4 Migraine genetics		12
1.1.5 Migraine treatment		13
1.1.6 Migraine chronification		13
<b>1.2 Depression</b>		<b>15</b>
1.2.1 Depression epidemiology and socioeconomic impact		15
1.2.2 Depression criteria and characteristics of a depressive episode		15
1.2.3 Depression pathophysiology		17
1.2.4 Depression genetics		17
1.2.5 Depression treatment		17
<b>1.3 Migraine and depression</b>		<b>18</b>
1.3.1 Comorbidity		18
1.3.2 Migraine-specific comorbidities		18
1.3.3 Interpretation of comorbidity		19
1.3.4 Why study the comorbidity of migraine with depression?		19
1.3.5 What is known about migraine and depression comorbidity?		20
1.3.6 The triad of migraine chronification, depression, and medication overuse		21
1.3.7 Depression and cluster headache		21

<b>Chapter 9</b>	<b>Summary and general discussion</b>	<b>158</b>
<i>9.1 Summary</i>		158
<i>9.2 General discussion</i>		159
9.2.1 Clinical determinants of depression in migraine patients		159
9.2.2 High migraine attack frequency is associated with depression		159
9.2.3 Genetic factors involved in migraine and depression		160
9.2.4 Cutaneous allodynia is associated with migraine chronification		160
9.2.5 Dimensions of affective disorders in migraine patients		161
9.2.6 Depression in hemiplegic migraine		162
9.2.7 Genetic factors involved in chronic migraine		163
9.2.8 Depression in cluster headache		163
9.2.9 The treatment of medication overuse headache		164
9.2.10 A critical discussion of the methodology		164
9.2.11 Clinical implications of our findings		166
