Title: Multimodal image-guided interventions using oncological biomarkers

Issue Date: 2018-05-22

A scenic landscape featuring a stone cairn on a rocky peak. The foreground is filled with dark, jagged rocks. In the middle ground, a stack of smooth, light-colored stones forms a cairn on a rocky outcrop. The background shows a vast, open landscape with rolling hills and a sky filled with soft, white and grey clouds. The lighting suggests a bright, sunny day.
