Issue Date: 2018-09-06

Communal Dining in the Roman West

Shanshan Wen

This study examines privately sponsored communal dining in the western half of the Roman Empire during the first three centuries AD. Why did this practice gain popularity in Italy, Spain and North Africa? Why did the development of this practice reach its peak in the second and early third centuries AD? What does it tell us about the particularities and evolution of social and political relationships in the communities of imperial Italy and the western provinces?

COMMUNAL DINING IN THE ROMAN WEST

Private Munificence Towards Cities and
Associations in the First Three Centuries AD
