## **Proefschrift**

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van de Rector Magnificus prof.mr.dr. P. F. van der Heijden,

volgens besluit van het Colleges voor Promoties

te verdedigen op donderdag 24 januari 2008

klokke 15.00 uur

door

**René Robert Wouda**

geboren te Breda  
in 1978

## **Promotiecommissie**

<b>Promotor:</b>	Prof. Dr. J. N. Noordermeer
<b>Co-promotor:</b>	Dr. L G. Fradkin
<b>Referent:</b>	Dr. H.C. Korswagen, Hubrecht Laboratory Netherlands Institute for Developmental Biology
<b>Overige leden:</b>	Prof. Dr. H. J. Tanke  Prof. Dr. P. Ten Dijke  Prof. Dr. Ir. S. M. van der Maarel  Dr. M. Fornerod, Dept of Tumor Biology, Netherlands Cancer Institute

Most experiments presented in this thesis were performed at the:  
Leiden University Medical Centre  
Department of Molecular Cell Biology  
Laboratory for Developmental Neurobiology  
Eindhovenweg 20, P.O. Box 9600  
NL – 2300 RC Leiden  
The Netherlands

The work in this thesis was financially supported by the Netherlands Organization for Scientific Research (NWO)

Financial support for the printing of this thesis was generously provided by:  
J.E. Jurriaanse Stichting, Koninklijke Nederlandse Academie voor Wetenschappen: Van  
Leersumfonds, Stichting Leids Universitair Fonds en Leica Microsystems Nederland b.v..

*When you are old and grey and full of sleep,  
And nodding by the fire, take down this book,  
And slowly read, and dream of the soft look  
Your eyes had once, and of their shadows deep;*

*How many loved your moments of glad grace,  
And loved your beauty with love false or true,  
But one man loved the pilgrim Soul in you,  
And loved the sorrows of your changing face;*

*And bending down beside the glowing bars,  
Murmur, a little sadly, how Love fled  
And paced upon the mountains overhead  
And hid his face amid a crowd of stars.*

*("When You Are Old", William Butler Yeats)*

*Voor Evelyn*

(*"Calvin & Hobbes"*, Bill Watterson b.1954)

# Contents

<b>Chapter 1</b>	Introduction: Wnt Signalling during Axon Guidance	<b>9</b>
<b>Chapter 2</b>	The <i>Drosophila</i> Wnt5 protein mediates selective axon fasciculation in the embryonic central nervous system	<b>41</b>
<b>Chapter 3</b>	Src64B is a downstream effector of Wnt5 signalling through the Derailed/RYK receptor	<b>63</b>
<b>Chapter 4</b>	Drl mediated Wnt5 signalling in CNS development; the involvement of canonical pathway members in a non-canonical Wnt pathway	<b>85</b>
<b>Chapter 5</b>	Conserved Wnt5-mediated RYK/Drl signalling in muscle attachment site selection during <i>Drosophila</i> development	<b>103</b>
<b>Chapter 6</b>	Antagonistic Roles of Wnt5 and the Drl RYK Receptor in Patterning the <i>Drosophila</i> Antennal Lobe	<b>125</b>
<b>Chapter 7</b>	Summary and Discussion	<b>151</b>
	Nederlandse samenvatting	<b>161</b>
	Curriculum vitae	<b>167</b>
	Appendix: Selected Color Figures	<b>169</b>
