The Role of Wnt5 During Axon Guidance

Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van de Rector Magnificus prof.mr.dr. P. F. van der Heijden,

volgens besluit van het Colleges voor Promoties

te verdedigen op donderdag 24 januari 2008

klokke 15.00 uur

door

René Robert Wouda

geboren te Breda

in 1978

Promotiecommissie

- Promotor:** Prof. Dr. J. N. Noordermeer
- Co-promotor:** Dr. L G. Fradkin
- Referent:** Dr. H.C. Korswagen, Hubrecht Laboratory Netherlands Institute for Developmental Biology
- Overige leden:** Prof. Dr. H. J. Tanke
- Prof. Dr. P. Ten Dijke
- Prof. Dr. Ir. S. M. van der Maarel
- Dr. M. Fornerod, Dept of Tumor Biology, Netherlands Cancer Institute

Most experiments presented in this thesis were performed at the:
Leiden University Medical Centre
Department of Molecular Cell Biology
Laboratory for Developmental Neurobiology
Eindhovenweg 20, P.O. Box 9600
NL – 2300 RC Leiden
The Netherlands

The work in this thesis was financially supported by the Netherlands Organization for Scientific Research (NWO)

Financial support for the printing of this thesis was generously provided by:
J.E. Jurriaanse Stichting, Koninklijke Nederlandse Academie voor Wetenschappen: Van Leersumfonds, Stichting Leids Universitair Fonds en Leica Microsystems Nederland b.v..

*When you are old and grey and full of sleep,
And nodding by the fire, take down this book,
And slowly read, and dream of the soft look
Your eyes had once, and of their shadows deep;*

*How many loved your moments of glad grace,
And loved your beauty with love false or true,
But one man loved the pilgrim Soul in you,
And loved the sorrows of your changing face;*

*And bending down beside the glowing bars,
Murmur, a little sadly, how Love fled
And paced upon the mountains overhead
And hid his face amid a crowd of stars.*

(“When You Are Old”, William Butler Yeats)

Voor Evelyn

(*"Calvin & Hobbes"*, Bill Watterson b.1954)

Contents

Chapter 1	Introduction: Wnt Signalling during Axon Guidance	9
Chapter 2	The <i>Drosophila</i> Wnt5 protein mediates selective axon fasciculation in the embryonic central nervous system	41
Chapter 3	Src64B is a downstream effector of Wnt5 signalling through the Derailed/RYK receptor	63
Chapter 4	Drl mediated Wnt5 signalling in CNS development; the involvement of canonical pathway members in a non-canonical Wnt pathway	85
Chapter 5	Conserved Wnt5-mediated RYK/Drl signalling in muscle attachment site selection during <i>Drosophila</i> development	103
Chapter 6	Antagonistic Roles of Wnt5 and the Drl RYK Receptor in Patterning the <i>Drosophila</i> Antennal Lobe	125
Chapter 7	Summary and Discussion	151
	Nederlandse samenvatting	161
	Curriculum vitae	167
	Appendix: Selected Color Figures	169
