**Author:** Niks, E.H.

**Title:** Myasthenia gravis with antibodies to muscle-specific kinase : clinical characteristics, epidemiology, and immunological aspects

**Issue Date:** 2013-01-17

# **Myasthenia gravis with antibodies to muscle-specific kinase**

Clinical characteristics, epidemiology, and immunological aspects

Erik H. Niks

ISBN: 978-94-6108-377-7

Lay-out and printing by Gildeprint Drukkerijen - Enschede, the Netherlands

Cover image: parasternal intercostal muscle biopsy from a MuSK MG patient, showing increased branching of intramuscular nerves compatible with nerve sprouting.

Part of this material is reproduced with permission from Elsevier Ltd., BMJ Publishing Group Ltd., John Wiley and Sons, and Wolters Kluwer Health.

This research project was supported by a grant of the Prinses Beatrix Fonds (project number MAR02-0110)

# **Myasthenia gravis with antibodies to muscle-specific kinase**

Clinical characteristics, epidemiology, and immunological aspects

## **Proefschrift**

ter verkrijging van  
de graad van Doctor aan de Universiteit Leiden,  
op gezag van Rector Magnificus prof. mr. P.F. van der Heijden,  
volgens besluit van het College voor Promoties  
te verdedigen op donderdag 17 januari 2013 klokke 15:00 uur

door

Erik Harmen Niks  
geboren te Veenendaal  
in 1972

## **Promotiecommissie**

Promotor: Prof. dr. J.J.G.M. Verschuur

Co-promotor: Dr. M.J.D. van Tol

Overige leden: Prof. dr. J.B.M. Kuks, Universitair Medisch Centrum Groningen

Prof. dr. J.G. van Dijk

Em. prof. dr. A.R. Wintzen

## Contents

Chapter I	General introduction	7
Chapter II	Epidemiology of myasthenia gravis with anti-muscle-specific kinase antibodies in the Netherlands	19
Chapter III	Clinical comparison of myasthenia gravis subtypes reveals predominant limb-girdle and extraocular muscle weakness in seronegative patients	27
Chapter IV	Strong association of MuSK antibody-positive myasthenia gravis and HLA-DR14-DQ5	45
Chapter V	Clinical fluctuations in MuSK myasthenia gravis are related to antigen-specific IgG4 instead of IgG1	51
Chapter VI	No auto-antibodies against synaptic ErbB in seronegative myasthenia gravis	65
Chapter VII	A transient neonatal myasthenic syndrome with anti-MuSK antibodies	77
Chapter VIII	Pre- and postsynaptic neuromuscular junction abnormalities in MuSK myasthenia	83
Chapter IX	Summary, discussion and future perspectives Nederlandstalige samenvatting	95 103
Chapter X	Appendices	
	- List of abbreviations	109
	- List of publications	111
	- Curriculum Vitae	115
	- Dankwoord	117
	- References	119
