The INS and OUTS of ligand binding to CCR2

Annelien Jacomina Maria Zweemer

The research described in this thesis was performed at the Division of Medicinal Chemistry of the Leiden Academic Centre for Drug Research, Leiden University (Leiden, The Netherlands). The research was part of the TI-Pharma initiative “Target residence time in translational drug research: the CCR2 chemokine receptor as a case in point” (Project number D1-301), in collaboration with Vertex Pharmaceuticals (San Diego, CA, USA) and the Vrije Universiteit Amsterdam (Amsterdam, The Netherlands).

This thesis was printed by Gildeprint (Enschede, The Netherlands).

The printing of this thesis was financially supported by PeproTech.
