Acknowledgements

De afgelopen jaren heb ik met veel plezier onderzoek gedaan: ik wil graag iedereen bedanken die direct en indirect betrokken was bij de totstandkoming van mijn proefschrift. Een aantal mensen wil ik hierbij in het bijzonder noemen...

Beste Kees, copromotor, ik dank je voor alle goede samenwerking, de steun en vertrouwen in mij, zonder jou was dit nooit gelukt! Mathee, ook jou wil ik bedanken voor je begrip en steun tijdens de drukke periodes. Promotoren professor Schalij en professor van der Wall, dank voor jullie begeleiding en steun.

Arie, dank voor je hulp, steun en leuke samenwerking tijdens mijn promotie. Maja en Evelien, dank voor jullie geduld toen ik extra elektroden voor mijn onderzoek moest aansluiten bij patiënten tijdens de fietstesten. Talitha, heel veel dank voor alle hulp rondom mijn onderzoek en proefschrift, zodat ik op afstand toch alles voor elkaar kon krijgen.

Lieve tuincollega's, Mark, Fleur, Joëlla, Carine, Mihály, Hans, Cees, Joep, Jeffrey, Georgette, Melina, Said, Dennis, Jan, Jan-Willem, Roderick, Thijs, Helèn, Caroline, ik wil jullie allemaal bedanken voor jullie hulp en voor de leuke, gezellige tijd binnen en buiten de tuin. Ik heb er mooie herinneringen aan overgehouden! Maaïke, dank voor je steun en gezelligheid als mede-promovenda van Kees. Louisa, super dat je mijn paranimf bent en dank voor je hulp en steun in moeilijke tijden.

Fawzia, Sonja, Natasha, dank voor jullie steun, liefde en gezelligheid tijdens de reünies. Dat geeft mij weer extra kracht om de promotie af te maken. Vanessa, harstikke leuk dat we naast dat we elkaar al heel lang kennen ook collega's werden. Dank voor je steun en luisterend oor bij de ups en downs van mijn onderzoek. Man-Chi, ik ben blij dat je mijn paranimf wilt zijn, je adviezen en steun waardeer ik zeer.

Wing King, last but not least, zonder jouw onvoorwaardelijke steun, liefde en begrip was het nooit mogelijk geweest om mijn promotie af te ronden. Mijn dank kan ik niet verwoorden. Ik kijk uit naar wat de toekomst ons zal brengen.

Curriculum Vitae

Sum-Che Man was born on August 20, 1981 in Alkmaar, the Netherlands. After her graduation in 1999 from the Jan Arentsz Atheneum in Alkmaar, she started to study Biomedical Sciences at the Leiden University Medical Center. In 2001, she started studying Medicine. She finished her studies with a research project in the Department of Cardiology under supervision of Dr. Cees A. Swenne and an internship at the Department of Cardiology of the Leiden University Medical Center. After her medical degree in 2008, she started a research fellowship in the Department of Cardiology, on the derivation of vectorcardiographic diagnostic & prognostic information from the 12-lead electrocardiogram under supervision of Dr. Cees A. Swenne, Prof. Ernst E. van der Wall and Prof. Martin J. Schalij. During her research fellowship, she got in touch with programming in digital signal processing and decided to combine her knowledge in medicine with Computer Science instead of being a physician. Therefore, she recently started to follow a master in Computer Science.
