Hypocretin Deficiency

Neuronal Loss and Functional Consequences

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden
op gezag van de Rector Magnificus prof. mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op woensdag 30 januari 2008
klokke 16:15 uur

door

Rolf Fronczek
geboren te Sittard in 1981

Promotiecommissie

Promotores

Prof. dr. J.G. Van Dijk

Prof. dr. D.F. Swaab (*Universiteit van Amsterdam; Nederlands Instituut voor
Neurowetenschappen*)

Co-promotor

Dr. G.J. Lammers

Referent

Dr. T.E. Scammell (*Beth Israel Deaconess Medical Center, Boston; Harvard Medical
School*)

Overig Lid

Prof. Dr. J.H. Meijer

πέμπε δέ μιν πομποῖσιν ἄμα κραιπνοῖσι φέρεσθαι,
Ἕπνῳ καὶ Θανάτῳ διδυμάοσιν, οἳ ῥά μιν ὤκα.

Then Sleep and Death, two twins of winged race,
Of matchless swiftmess, but of silent pace.
- Homer, The Iliad (XVI:831), (*Pope's translation*)

For My Parents

Table of Contents

General Introduction and Scope of the Thesis 1

Part I - The Hypothalamus and its Hypocretin Neurons

1. The Number of Hypothalamic Hypocretin (Orexin) Neurons Is Not Affected in Prader-Willi Syndrome 13

 a. Visualizing the Hypocretin Receptor. 25

2. Hypocretin (Orexin) Loss in Parkinson's Disease 31

3. Hypocretin and Melanin-Concentrating Hormone in Patients with Huntington Disease 47

4. Immunohistochemical Screening for Autoantibodies against Lateral Hypothalamic Neurons in Human Narcolepsy 65

5. Response to Intravenous Immunoglobulins and Placebo in a Patient with Narcolepsy with Cataplexy. 75

Part II - When Hypocretin Neurons are Absent: Narcolepsy

6. Narcolepsie: Diagnostiek en Behandeling in Nieuw Perspectief 81

7. Focusing on Vigilance Instead of Sleepiness in the Assessment of Narcolepsy: High Sensitivity of the Sustained Attention to Response Task (SART). 93

8.	Increased Heart Rate Variability but Normal Resting Metabolic Rate in Hypocretin/Orexin-deficient Human Narcolepsy	105
9.	Altered Skin-Temperature Regulation in Narcolepsy Relates to Sleep Propensity	119
	a. Evaluation of Wireless Determination of Skin Temperature using iButtons.	133
10.	Manipulation of Core Body and Skin Temperature improves Vigilance and Maintenance of Wakefulness in Narcolepsy	151
11.	Manipulation of Skin Temperature improves Nocturnal Sleep in Narcolepsy.	167
	Summary & General Discussion	177
	Summary in Dutch	197
	Curriculum Vitae	201
	List of Publications.	203
