Fading Memories

The impact of stress hormones on the
retrieval of emotional memories

Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van de Rector Magnificus prof. mr. P.F. van der Heijden,

volgens besluit van het College voor Promoties,

te verdedigen op woensdag 13 mei 2009

klokke 13.45 uur

door

Marieke Suzanne Tollenaar

geboren te Huizen

in 1979

Promotores:

Prof. dr. Ph. Spinhoven

Universiteit Leiden

Prof. dr. W.T.A.M. Everaerd

Universiteit van Amsterdam

Copromotor:

Dr. B.M. Elzinga

Universiteit Leiden

Overige leden van de promotiecommissie:

Prof. dr. H.L.G.J. Merckelbach

Universiteit Maastricht

Prof. dr. M.S. Oitzl

Universiteit Leiden /

Universiteit van Amsterdam

The research in this dissertation was supported by the Netherlands Organization for Scientific Research (NWO, Den Haag) grant number 400-03-210.

Contents	Page
Chapter 1: General Introduction	7
Chapter 2: The effects of cortisol increase on long-term memory retrieval during and after psychosocial stress	21
Chapter 3: Long-term outcomes of memory retrieval under stress	37
Chapter 4: Immediate and prolonged effects of cortisol, but not propranolol, on memory retrieval in healthy young men	49
Chapter 5: Autobiographical memory after acute stress in healthy young men	65
Chapter 6: Psychophysiological responding to emotional memories in healthy young men after cortisol and propranolol administration	79
Chapter 7: General Discussion	95
