Title: Tango to traffic : a field study into consequences of noisy urban conditions for acoustic courtship interactions in birds

Issue Date: 2012-03-01

TANGO TO TRAFFIC

A field study into consequences of noisy urban conditions
for acoustic courtship interactions in birds

The acoustic courtship display of a male and a female great tit show all the characteristics of a passionate dance. This thesis examines the impact of anthropogenic noise on the acoustic communication between males and females and the relationship with reproduction
