

CONTENTS

1. Introduction	9
SECTION 1. Physiology	
2. Modeling the ventilatory response to carbon dioxide in humans after bilateral and unilateral carotid body resection (CBR)	15
3. Antioxidants prevent depression of the acute hypoxic ventilatory response by subanesthetic halothane	25
SECTION 2. Pharmacology	
4. Propofol for monitored anesthesia care: Implications on hypoxic control of cardiorespiratory responses	37
5. Respiratory sites of action of propofol: Absence of depression of peripheral chemoreflex loop by low-dose propofol	49
6. Response surface modeling of alfentanil-sevoflurane interaction on cardiorespiratory control and bispectral index	59
7. Response surface modeling of remifentanil-propofol interaction on cardiorespiratory control and bispectral index	75
8. Respiratory depression by tramadol in the cat: involvement of opioid receptors?	93
SECTION 3. Postoperative Care	
9. The <i>Ward 9 Study</i> or Ventilatory responses after major abdominal surgery and intensive care	105
10. Summary and Conclusions — Samenvatting en Conclusies	119
11. References	131
List of Abbreviations and Symbols	141
Curriculum Vitae and List of Publications	143
