Proefschrift
ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 18 november 2010
klokke 15 uur

door

Nicole Yü Lan Oei

Geboren te Amsterdam
in 1967

Promotiecommissie

Promotor: Prof. Dr. Ph. Spinhoven

Copromotor: Dr. B. M. Elzinga

Overige leden: Prof. Dr. J. W. van der Does

Prof. Dr. G. Fernández, Radboud Universiteit Nijmegen

Prof. Dr. S. A. R. B. Rombouts

Prof. Dr. O. T. Wolf, Ruhr-Universität Bochum

Contents

Chapter 1	General introduction	9
Chapter 2	Glucocorticoids decrease hippocampal and prefrontal activation during declarative memory retrieval in young men	23
Chapter 3	Psychosocial stress impairs working memory at high loads: an association with cortisol levels and memory retrieval	43
Chapter 4	Hydrocortisone reduces emotional distracter interference in working memory	63
Chapter 5	Propranolol reduces emotional distraction in working memory: A partial mediating role of propranolol-induced cortisol increases?	83
Chapter 6	Stress shifts brain activation towards ventral "affective" areas during emotional distraction	105
Chapter 7	Summary and general discussion	125
	Nederlandse samenvatting (Dutch summary)	142
	References	149
	Curriculum Vitae	176
