in 1976

Promotiecommissie

Promotores:

Prof. dr. M.H. van IJzendoorn

Prof. dr. A. Sagi-Schwartz (University of Haifa)

Prof. dr. M.J. Bakermans-Kranenburg

Overige leden:

dr. L.R.A. Alink

Prof. dr. F. Juffer

Prof. dr. J.T. Swaab-Barneveld

This study was supported by the NWO SPINOZA prize awarded to Marinus van IJzendoorn. The generous support of the German-Israel Foundation for Research and Development (GIF 279) and the Koehler Stiftung (Munich, Germany) to Avi Sagi-Schwartz, Klaus Grossmann and Marinus van IJzendoorn is deeply appreciated.

Marinus van IJzendoorn and Marian Bakermans-Kranenburg were supported by research awards from the Netherlands Organization for Scientific Research (NWO SPINOZA prize and VIDI grant no. 452-04-306, respectively).

Contents

Chapter 1. General Introduction	13
Overview of Holocaust research	15
New research directions	17
 Chapter 2. Coping in Old Age with Extreme Childhood Trauma: Aging Holocaust Survivors and Their Offspring Facing New Challenges	 23
Abstract	24
Introduction	25
Method	28
<i>Participants</i>	28
<i>Procedure</i>	29
<i>Measures</i>	29
<i>Statistical Analysis</i>	30
<i>Attrition</i>	31
Results	31
Discussion	36
 Chapter 3. Aftermath of Genocide: Elevated Levels of Diurnal Cortisol in Holocaust Survivors but not in their Adult Offspring?	 47
Abstract	48
Introduction	49
Method	51
<i>Participants</i>	51
<i>Procedure</i>	52
<i>Measures</i>	52
<i>Statistical Analysis</i>	53
Results	54
Discussion	59
 Chapter 4. Stress Reactivity and Trauma: Deviant in Holocaust -Survivors, but not in their Daughters	 65
Abstract	66
Introduction	67
Method	69
<i>Participants</i>	69

<i>Procedure</i>	70	
<i>Measures</i>	70	
<i>Statistical Analysis</i>	72	
Results		72
Discussion		77
Chapter 5. Genetic Moderation of Cortisol Secretion in Holocaust Survivors: The Role of ADRA2B		85
Abstract		86
Introduction		87
Method		88
<i>Participants</i>	88	
<i>Procedure</i>	88	
<i>Measures</i>	88	
<i>Statistical Analysis</i>	91	
Results		91
Discussion		95
Chapter 6. General Discussion		99
Introduction		101
Theoretical perspective		103
Limitations and suggestions for future research		104
Samenvatting (Summary in Dutch)		109
Acknowledgements		117
Curriculum Vitae		121

Lists of Tables and Figures

Chapter 2

Table 1	Holocaust Survivors and Comparison Subjects: Between Samples Analysis	32
Table 2	Holocaust Survivors, Their Daughters and Comparison Subjects Statistic	33
Table 3	Predictors of Holocaust versus Comparison Group	35
Table 4	Correlations between First and Second Generation	36

Chapter 3

Table 1	Background Variables and Cortisol Values over the Day, First Generation	55
Figure 1	Cortisol Levels over the Day of First Generation Holocaust Survivors and Comparisons	56
Table 2	Background Variables and Cortisol Values over the Day, Second Generation	57
Figure 2	Cortisol Levels over the Day of Second Generation Holocaust Survivors and Comparisons	58

Chapter 4

Table 1	Background Variables and Cortisol Values at Baseline and after Stress for the First Generation	73
Figure 1	Cortisol Levels at Baseline and after Stress of First Generation Holocaust survivors and Comparisons, Controlled for Baseline Time of Sampling	74

Table 2	Background Variables and Cortisol Values at Baseline and after Stress for the Second Generation	75
Figure 2	Cortisol Levels after Stress of Second Generation Holocaust Survivors and Comparisons, Controlled for Baseline Time of Sampling	76
Table 3	Cortisol Reactivity between Generations	76
Chapter 5		
Table 1	Background Variables and Cortisol Values over the Day, and in Reaction to Stress	92
Figure 1a	Diurnal Cortisol levels of Holocaust Survivors and Comparisons with the ADRA2B Wildtype Carriers	93
Figure 1b	Diurnal Cortisol levels of Holocaust Survivors and Comparisons with the ADRA2B Deletion Carriers	93
Figure 2a	Cortisol Reactivity of Holocaust Survivors and Comparisons with the ADRA2B Wildtype Carriers	94
Figure 2b	Cortisol Reactivity of Holocaust Survivors and Comparisons with the Deletion Variants	94
