Unraveling the Glucocorticoid Receptor Pathway in Zebrafish

Proefschrift

Ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van Rector Magnificus prof. mr. P.F. van der Heijden,

volgens besluit van het College voor Promoties

te verdedigen op dinsdag 26 juni 2012

klokke 10.00 uur

door

Antonia Chatzopoulou Chatzi

geboren te Athene, Griekenland

in 1980

Promotiecommissie

Promotor: Prof. dr. H.P. Spaink

Co-promotor: Dr. M.J.M. Schaaf

Overige leden: Prof. dr. C.J. ten Cate

Prof. dr. S.N. Farrow

Prof. dr. E.R. de Kloet

All experiments described in this thesis were conducted at the Molecular and Cell Biology department of Leiden University, The Netherlands. The research was financially supported by the SmartMix program of The Netherlands Ministry of Economic Affairs and the Ministry of Education, Culture and Science.

Table of contents

Chapter 1	General introduction.....	7
Chapter 2	Glucocorticoid-induced attenuation of the inflammatory response in zebrafish.....	27
Chapter 3	Characterization of the glucocorticoid receptor signaling in zebrafish using microarray analysis.....	49
Chapter 4	The functional role of the zebrafish glucocorticoid receptor β -isoform.....	73
Chapter 5	General discussion.....	107
	Summary.....	110
	Samenvatting (summary in Dutch).....	112
Curriculum vitae		115
List of publications		117
