PROEFSCHRIFT

ter verkrijging van de graad van Doctor aan de Universiteit Leiden,  
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,  
volgens besluit van het College voor Promoties  
te verdedigen op donderdag 28 mei 2020  
klokke 15.00 uur  
door

**Renate Buisman**

geboren te Zwolle in 1987

**Promotores**

Prof. dr. Lenneke R. A. Alink

Prof. dr. Marian J. Bakermans-Kranenburg

**Promotiecommissie**

Prof. dr. Glenn I. Roisman (University of Minnesota, VS)

Prof. dr. Majone Steketee (Erasmus Universiteit Rotterdam)

Prof. dr. Femmie Juffer

The studies described in the current dissertation were supported by the Netherlands Organization for Scientific Research (M. J. Bakermans-Kranenburg: VICI Grant 453-09-003; L. R. A. Alink: VIDI Grant 016.145.360; B.M. Elzinga VICI grant 453-15-006 and M. H. van IJzendoorn: NWO SPINOZA prize) and grants of Leiden University to initiate and support the Research Profile Area Health, Prevention and the Human Life Cycle awarded to M. H. van IJzendoorn, P. Assendelft, and B. van Hemert. M. H. van IJzendoorn, B. M. Elzinga, R. Westendorp and M. J. Bakermans- Kranenburg initiated the 3-Generation Parenting Study.

## Table of Contents

|                  |                                                                                                                                               |            |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Chapter 1</b> | General introduction                                                                                                                          | <b>7</b>   |
| <b>Chapter 2</b> | Intergenerational transmission of child maltreatment using a multi-informant multi-generation family design                                   | <b>21</b>  |
| <b>Chapter 3</b> | The past is present: the role of maltreatment history in perceptual, behavioral and autonomic responses to infant emotional signals.          | <b>53</b>  |
| <b>Chapter 4</b> | Parents' experiences of childhood abuse and neglect are differentially associated with behavioral and autonomic responses to their offspring. | <b>79</b>  |
| <b>Chapter 5</b> | Child maltreatment and parent-offspring interaction:<br>A multigenerational extended family design                                            | <b>109</b> |
| <b>Chapter 6</b> | General discussion                                                                                                                            | <b>133</b> |
| <b>Chapter 7</b> | Supplementary material                                                                                                                        | <b>151</b> |
|                  | Appendices                                                                                                                                    | <b>167</b> |
|                  | Nederlandse samenvatting                                                                                                                      | <b>168</b> |
|                  | Dankwoord                                                                                                                                     | <b>182</b> |
|                  | Curriculum Vitae                                                                                                                              | <b>184</b> |
