Proefschrift

Ter verkrijging van

de graad van Doctor aan de Universiteit Leiden

op gezag van

Rector Magnificus prof. mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op 10 september 2020

Klokke 13.45 uur

door

Lisanne Sophia Anthonia Tollenaar

Geboren te Leiden

In 1993

Promotores	Prof. dr. E. Lopriore
	Prof. dr. D. Oepkes
Co-promotor	Dr. F. Slaghekke
Leden promotiecommissie	Prof. dr. M. C. De Vries
	Prof. dr. R. Devlieger
	(University Hospitals, KU Leuven, België)
	Dr. L. Herling
	(Karolinska Institutet, Stockholm, Zweden)

Outline of thesis

PART ONE	PATIENT JOURNEY	7
PART TWO	GENERAL INTRODUCTION	23
PART THREE	REVIEW Chapter 1 – Twin anemia polycythemia sequence: current views on pathogenesis, diagnostic criteria, perinatal management and outcome	41
PART FOUR	PATHOGENESIS Chapter 2 - Twin-Twin transfusion syndrome with anemia-polycythemia: Prevalence, Characteristics, and Outcome	67
PART FIVE	ANTENATAL DIAGNOSIS Chapter 3 - Improved prediction of twin anemia polycythemia sequence by delta middle cerebral artery peak systolic velocity: new antenatal classification system Chapter 4 – The prevalence of fetal cardiomegaly, placental dichotomy and starry-sky liver in twin anemia polycythemia sequence	83 99
PART SIX	ANTENATAL THERAPY Chapter 5 – Treatment and outcome in 370 cases with spontaneous and post-laser twin anemia polycythemia sequence managed in 17 different fetal therapy centers. Chapter 6 – The TAPS Trial – fetoscopic laser surgery for twin anemia polycythemia sequence – an open label international multicenter randomized controlled trial (protocol)	113 137
PART SEVEN	POSTNATAL DIAGNOSIS Chapter 7 – Color difference in placentas with twin anemia polycythemia sequence: an additional diagnostic criterion? Chapter 8 – Can color difference on the maternal side of the placenta distinguish between acute peripartum twin-twin transfusion syndrome and twin anemia polycythemia sequence?	155 167
PART EIGHT	SHORT-TERM OUTCOME Chapter 9 – Spontaneous twin anemia polycythemia sequence: management and outcome in a large international cohort of 249 cases. Chapter 10 – Post-laser twin anemia polycythemia sequence: management and outcome in a large international cohort of 164 cases.	183 205

PART NINE	LONG-TERM OUTCOME	
	Chapter 11 – High risk for long-term impairment in donor twins with spontaneous twin anemia polycythemia sequence	229
PART TEN	SUMMARY AND DISCUSSION	
	Summary	250
	General discussion	254
	Patient journey in view of our new insights	275
	Summary in Dutch	279
	Next steps towards improved care for TAPS	287
PART ELEVEN	APPENDICES	
	Publications	294
	Curriculum Vitae	299
	Dankwoord	300
	List of Abbreviations	303
