The investigations described in this thesis were performed at the departments of Neurology and Radiology of the Leiden University Medical Center, Leiden, the Netherlands. This research was supported by grants of the Netherland Organisation for Scientific Research (Spinoza 2009 to MDF; VICI 918.56.602 to MDF; 903-52-291 to MDF; VENI 907.00.217 to GMT; VIDI 917.11.319 to GMT; VIDI 917.11.349 to AMvdB), Stichting Merel (WPJvO); the Centre for Medical Systems Biology (CMSB; in the framework of the Netherlands Genomic Initiative); and the European Commission (FP7-EUROHEADPAIN 602633 to MDF). They had no role in the design or conduct of the study.

Financial support for the printing of this thesis has been generously provided by the Nederlandse Hoofdpijn Vereniging and the Migrainefonds (allesoverhoofdpijn.nl), and was gratefully accepted.

The onset of the migraine attack

Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van Rector Magnificus prof.dr. C.J.J.M. Stolker,

volgens besluit van het College voor Promoties

te verdedigen op 30 september 2020

klokke 16:15 uur

door

Willebrordus Petrus Johannes van Oosterhout

Geboren te Made en Drimmelen

Op 23 augustus 1982

Promotor	Prof.dr. M.D. Ferrari
Co-promotores	Dr. G.G. Schoonman Dr. M.C. Kruit
Promotiecommissie	Prof.dr. S.A.R.B. Rombouts Prof.dr. H.C. Weinstein Mw.dr. A. Maassen van den Brink Dr. J. van der Grond

Table of Contents

Chapter 1	General introduction and aims of the thesis	9
Part I:	**Clinical aspects and modulators**	
Chapter 2	Validation of the web-based LUMINA questionnaire for recruiting large cohorts of migraineurs. *Cephalalgia 2011;31(13):1359-1367*	31
Chapter 3	Chronotypes and circadian timing in migraine. *Cephalalgia 2018;38(4):617-625*	51
Chapter 4	Restless legs syndrome in migraine patients: prevalence and severity. *European Journal of Neurology 2016;23(6):1110-1116*	69
Chapter 5	Postdural puncture headache in migraineurs and nonheadache subjects: a prospective study. *Neurology 2013;80(10):941-948*	83
Chapter 6	Abnormal cardiovascular response to nitroglycerin in migraine. *Cephalalgia 2020;40(3):266-277*	101
Part II:	**Imaging aspects**	
Chapter 7	Changes in functional Magnetic Resonance Imaging of the hypothalamus in the early phase of migraine attacks. *Submitted at Pain*	123
Part III:	**Biochemical aspects**	
Chapter 8	Female Sex Hormones in Men with Migraine. *Neurology 2018;91(4):e374-381*	145
Chapter 9	Reduced trigeminovascular cyclicity in patients with menstrually related migraine. *Neurology 2015;84(2):125-131*	161
Chapter 10	A human capsaicine model to quantitatively assess salivary CGRP secretion. *Cephalalgia 2015;35(8):675-682*	175

Part IV: Summary

Chapter 11 Conclusions, general discussion and future perspectives 191

Chapter 12 Nederlandse samenvatting 203
