Phenotyping Cardiometabolic Disease with Magnetic Resonance Techniques

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof. mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 1 oktober 2020
klokke 15.00 uur

door

Elisabeth Helena Maria Paiman
geboren te Leiderdorp
in 1988

Promotor

Prof. dr. H.J. Lamb

Copromotores

Dr. ir. R.J. van der Geest

Dr. I.M. Jazet

Leden promotiecommissie

Dr. R.N. Planken (Amsterdam UMC)

Prof. dr. S. Middeldorp (Amsterdam UMC)

Prof. dr. H. Pijl

The work described in this thesis was performed at the department of Radiology, Leiden University Medical Center, Leiden, the Netherlands. Research was financially supported by the Cardio Vascular Imaging Group (CVIG), Leiden, the Netherlands. Part of this work was funded by NWO Domain Applied and Engineering Sciences, grant number 12899. Another part of the research described in this thesis was financially supported by Novo Nordisk A/S, Bagsvaerd, Denmark. Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged. Additional financial support for the printing of this thesis was kindly provided by Medis Medical Imaging Systems bv.

TABLE OF CONTENTS

Chapter 1	General introduction and outline	7
PART I • TYPE 2 DIABETES		
Chapter 2	The role of insulin resistance in the relation of visceral, abdominal subcutaneous and total body fat to cardiovascular function <i>Nutr Metab Cardiovasc Dis. 2020; in press</i>	21
Chapter 3	Phenotyping diabetic cardiomyopathy in Europeans and South Asians <i>Cardiovasc Diabetol. 2019 Oct 11;18(1):133</i>	51
Chapter 4	A double-blind, placebo-controlled, randomized trial to assess the effect of liraglutide on ectopic fat accumulation in South Asian type 2 diabetes patients <i>Cardiovasc Diabetol. 2019 Jul 9;18(1):87</i>	75
Chapter 5	Effect of liraglutide on cardiovascular function and myocardial tissue characteristics in type 2 diabetes patients of South Asian descent living in the Netherlands: a double-blind randomized placebo-controlled trial <i>J Magn Reson Imaging. 2020 Jun;51(6):1679-1688. Epub 2019 Dec 4</i>	97
PART II • PEDIATRIC HEMATOPOIETIC STEM CELL TRANSPLANTATION		
Chapter 6	Late effects of pediatric hematopoietic stem cell transplantation on left ventricular function, aortic stiffness and myocardial tissue characteristics <i>J Cardiovasc Magn Reson. 2019 Jan 17;21(1):6</i>	121
PART III • ISCHEMIC HEART DISEASE		
Chapter 7	When should we use contrast material in cardiac MRI? <i>J Magn Reson Imaging. 2017 Dec;46(6):1551-1572. Epub 2017 May 8</i>	143
Chapter 8	Association of cardiovascular magnetic resonance-derived circumferential strain parameters with the risk of ventricular arrhythmia and all-cause mortality in patients with prior myocardial infarction and primary prevention implantable cardioverter defibrillator <i>J Cardiovasc Magn Reson. 2019 May 16;21(1):28</i>	179
Chapter 9	General discussion and future perspectives	203
Chapter 10	Summary	213
	List of publications	219
	Curriculum vitae	223
	Nederlandse samenvatting	225
	Dankwoord	231
