Contents

Chapter 1	General introduction	9
-----------	----------------------	---

How noise affects foraging predators

Chapter 2	Spatial behaviour, swimming speed and surfacing rate of two captive harbour porpoises in ambient sound control conditions	19
Chapter 3	Spatial avoidance to experimental increase of intermittent and continuous sound in two captive harbour porpoises	29
Chapter 4	Diving apart together: Vertical call propagation in long-finned pilot whales	59

How noise affects prey

Chapter 5	Effects of impulsive, low frequency anthropogenic noise on pelagic fish in the North Sea	83
Chapter 6	Effects of short-term and long-term noise exposure on anti-predator behaviour: A field experiment with sand gobies	111
Chapter 7	General discussion and summary	129
