Title: Distance models for analysis of multivariate binary data

Issue Date: 2018-12-20

The background features a glowing, translucent brain on the left side, rendered in shades of blue and purple. A grid of thin white lines is overlaid on the brain. To the right of the brain, several glowing lines in blue and purple extend across the dark background, some ending in small dots, resembling a circuit board or data flow diagram. The overall aesthetic is high-tech and digital.

Distance Models for Analysis of Multivariate Binary Data
