Title: Distance models for analysis of multivariate binary data

Issue Date: 2018-12-20

The background is a dark, textured surface. On the left side, there is a glowing, translucent blue and purple brain-like structure. Overlaid on this and the rest of the background are various glowing lines in shades of blue and purple, some straight and some curved, resembling circuitry or data paths. There are also small, glowing dots at the ends of some lines.

Distance Models for Analysis of Multivariate Binary Data
