MOLECULAR AND GENETIC MARKERS FOR THE PREDICTION OF KIDNEY TRANSPLANT OUTCOME

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties

te verdedigen op woensdag 19 december 2018
klokke 10.00 uur

door

Jianxin Yang

geboren te Zhangjiakou, China
in 1985

Promotor: Prof. Dr. F.H.J. Claas

Co-promotor: Dr. M. Eikmans

Leden commissie: Prof. Dr. F. Koning
Prof.Dr. MEJ Reinders
Prof.Dr. S. Florquin (University of Amsterdam)
Dr. H.G. Otten (University Medical Center Utrecht)

Financial support for the publication of this thesis was kindly provided by the University Libraries Leiden, National Reference Center for Histocompatibility Testing and the Nederlandse Transplantatie Vereniging.

TABLE OF CONTENTS

Chapter 1.	General introduction	9
Chapter 2	The source of SYBR green master mix determines outcome of nucleic acid amplification reactions. <i>BMC research notes. 2016 Dec;9(1):292.</i>	37
Chapter 3	Elevated intragraft expression of innate immunity and cell death-related markers is a risk factor for adverse graft outcome. <i>Transplant immunology. 2018 Feb 20.</i>	55
Chapter 4	Endothelial-epithelial-related transcriptional levels in acute rejection biopsies of kidney transplant recipients are predictive for a worse response to steroid treatment. Submitted	79
Chapter 5	Genome-wide association study for acute kidney transplant rejection. Submitted	97
Chapter 6	The degree of genomic missense SNP mismatching does not affect outcome after kidney transplantation. Submitted	117
Chapter 7	Genome-wide association studies in kidney transplantation: advantages and constraints. <i>Transplant immunology. 2018 April 25.</i>	133
Chapter 8	Calcium-Binding Proteins S100A8 and S100A9: Investigation of Their Immune Regulatory Effect in Myeloid Cells. <i>Int. J. Mol. Sci. 2018, 19, 1833.</i>	143
Chapter 9	Summary and general discussion	163
Chapter +	Nederlandse Samenvatting	180
	Curriculum Vitae	184
	Abbreviations	185
	List of Publications	187
	Acknowledgments	188
