Title: Self adjuvanting immunopeptides : design and synthesis

Issue Date: 2018-12-17

Curriculum vitae

Geoffroy Gential was born October 3rd 1988 at St Priest en Jarez in France. He completed CPGE PCSI/PC course (Classe préparatoire au concours des grandes écoles, Physique Chimie, Sciences industrielles) in 2006, and ENSCCF (École nationale supérieure de chimie de Clermont-Ferrand) in 2008. He did a first 3 month internship in 2011 at Leiden University on the synthesis of adenosine building block, then a second internship in 2011 on solution phase synthesis of oligonucleotide fragments and the design and synthesis of orthogonal adamantane based protective group. He graduated as fine and industrial organic chemistry engineer in 2011 (master degree). He pursued his studies at Leiden University as PhD student under supervision of Dmitri Filippov and Prof. Gijs van der Marel. He presented a poster about his research at symposium "design and synthesis" (October 2012 and November 2013, Lunteren) and CHAINS 2014 (2014, Veldhoven). He participated at HRSMC summer school "New vistas for organic synthesis" (June 2013, Maastricht). In June 2016, he joined Alcamy in Weert as Chemist I in process development. Since December 2017, he works as Senior Scientist at Ardena (previously Chemconnection) in Oss.
