Contents

Chapter 1	General introduction and outline	9
Part I: Factors associated with hand OA disease state and progression of hand OA		
Chapter 2	Do comorbidities play a role in hand osteoarthritis disease burden? Data from the Hand OSTeoArthritis in Secondary care cohort J Rheumatol. 2017;Nov;44(11):1659-1666.	29
Chapter 3	Illness perceptions and their association with two-year functional status and change in patients with hand osteoarthritis Rheumatology (Oxford). 2018;57(12):2190-9.	49
Chapter 4	Bone marrow lesions on magnetic resonance imaging in hand osteoarthritis are associated with pain and interact with synovitis Osteoarthritis Cartilage. 2017;25(7):1093-1099.	71
Chapter 5	Effusion attenuates the effect of synovitis on radiographic progression in patients with hand osteoarthritis: a longitudinal magnetic resonance imaging study Submitted	87
Chapter 6	Bone marrow lesions and synovitis on magnetic resonance imaging associate with radiographic progression after two years in hand osteoarthritis Ann Rheum Dis. 2017;76(1):214-217.	99
Chapter 7	In finger osteoarthritis, change in synovitis is associated with change in pain on a joint level; a longitudinal magnetic resonance imaging study Accepted for publication Osteoarthritis Cartilage	115

Part II: clinimetric properties of outcome measures in hand OA

Chapter 8	Painful joint counts as an outcome measure for pain and joint activity in hand osteoarthritis Submitted	137
Chapter 9	Sensitivity-to-Change and Validity of semi-automatic Joint Space Width Measurements in Hand Osteoarthritis: a Follow-up Study Osteoarthritis Cartilage. 2016;24(7):1172-1179.	153
Summary and appendices		
Chapter 10	Summary and discussion	173
Chapter 11	Nederlandse samenvatting	193
Appendices	List of publications	208
	Curriculum vitae	209
	Dankwoord	210
