Title: Human-Lion conflict around Nairobi National Park: Lion (*Panthera leo melanochaita*, Hamilton Smith, 1842) Population Structure, Landscape Use and Diet, in a Semi-Fenced Park

Issue Date: 2019-12-04

Human–Lion Conflict around Nairobi National Park

This PhD research was funded by the Louwes Fund for Water and Food through the Institute of Environmental Sciences (CML), Leiden University, The Netherlands; the Leo Foundation of The Netherlands; the International Fund for Animal Welfare (IFAW) and Safaricom, Kenya funded lion collars and collaring activities.

Human-Lion Conflict around Nairobi National Park

Lion (*Panthera leo melanochaita*, Hamilton Smith, 1842)

**Population Structure, Landscape Use and Diet,
in a Semi-Fenced Park**

PROEFSCHRIFT

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden
op gezag van de Rector Magnificus prof. mr. C. J. J. M. Stolker
volgens besluit van het College voor Promoties
te verdedigen op 4 december 2019
klokke 15.00 uur

door

FRANCIS LONGORY LESILAU

Geboren te Laisamis, Kenia

in 1966

Promotor: Prof. dr. G. R. de Snoo

Prof. dr. G. A. Persoon

Co-promotors: Prof. dr. Ir. H. H. de Jongh

Promotiecommissie: Prof. dr. A. Tukker, Leiden University

Prof. dr. P. M. van Bodegom, Leiden Universiteit

Prof. dr. C. Musyoki, Kyoto University

Prof. dr. E. H. M. Sterck, Utrecht Universiteit

Prof. dr. H. Bauer, Antwerpen University/Oxford University

Contents

1	Introduction	9
1.1	General background	9
1.2	Status of lion population in Africa	11
1.3	Review of relevant scientific literature	14
1.4	Research objectives and research questions	19
1.5	Study area	20
1.6	Rationale and thesis structure	23
	References	25
2	Population Size and Social Structure of Lions (<i>Panthera leo melanochaita</i>) in Nairobi National Park	35
	Abstract	35
2.1	Introduction	36
2.2	Material and methods	37
2.2.1	Study area	37
2.2.2	Data collection	39
2.2.3	Data analysis and statistics	41
2.3	Results	42
2.3.1	Population and prides	42
2.3.2	Social structure and sex ratio	44
2.3.3	Threats to the NNP lion population	46
2.3.4	Coalitions and pride takeovers	48
2.4	Discussion	50
2.4.1	Population size and number of prides	50
2.4.2	Social structure and sex ratio	50
2.4.3	Threats to the NNP lion population	52
2.4.4	Coalitions, pride take-overs and pride tenure	53
	Acknowledgements	54
	References	54

3	Home Range Size, Dynamics and Movements of Nairobi National Park Lions (<i>Panthera leo melanochaita</i>)	63
	Abstract	63
3.1	Introduction	64
3.2	Material and methods	66
3.2.1	Study area	66
3.2.2	Data collection	68
3.2.3	Data analysis and statistics	70
3.3	Results	72
3.3.1	Home range size	72
3.3.2	Seasonal movement, exit and re-entry	78
3.3.3	Travel distance	79
3.3.4	Habitat factors	80
3.4	Discussion	82
3.4.1	Home range	82
3.4.2	Activity patterns	83
3.4.3	Distance travelled	83
3.4.4	Habitat factors	84
	Acknowledgements	86
	References	86
	Supporting information	90
4	Impact of Climate Variability on Feeding Ecology of a Lion (<i>Panthera leo melanochaita</i>) Population under Urban Pressure in Nairobi National Park, Kenya	93
	Abstract	93
4.1	Introduction	94
4.2	Materials and methods	96
4.2.1	Study area	96
4.2.2	Data collection	97
4.2.3	Data analysis and statistics	99
4.3	Results	101
4.3.1	Prey diversity in lion scats	101
4.3.2	Climate variability effects	103
4.3.3	Meta-barcoding results	104
4.3.4	Prey carcass diversity and biomass	106
4.3.5	DNA-metabarcoding analysis versus scat and carcass sampling	108

4.4	Discussion	109
4.4.1	Diet composition	109
4.4.2	Climate variability effects	110
4.4.3	DNA-metabarcoding	111
4.4.4	DNA-metabarcoding versus prey hair analysis and carcass counts	112
	Acknowledgements	113
	References	113
	Supporting information	118
5	Impact of Partial Park Fencing and Costs of Livestock Depredation by Lions (<i>Panthera leo melanochaita</i>) around Nairobi National Park, Kenya	121
	Abstract	121
5.1	Introduction	122
5.2	Material and methods	125
5.2.1	Study area	125
5.2.2	Data collection	126
5.2.3	Data analysis and statistics	128
5.3	Results	130
5.3.1	Livestock presence in lion scats	130
5.3.2	Livestock depredation	131
5.3.3	Impact of fencing and rainfall	133
5.3.4	Costs of lion attacks	134
5.3.5	Comparison with depredation data from scats	134
5.4	Discussion	135
5.4.1	Depredation on livestock based on hair analysis	135
5.4.2	Livestock depredation	135
5.4.3	Impact of fencing and rainfall	136
5.4.4	Costs of lion attacks	138
5.4.5	Added value of scats and predation records	138
5.5	Conclusion	139
	Acknowledgements	138
	References	139
