**Title:** Probing the properties of dark matter particles with astrophysical observations

**Issue Date:** 2019-12-16

A visualization of the cosmic web, showing a complex network of filaments and nodes. The filaments are colored in shades of green and yellow, while the nodes are highlighted in bright yellow and orange. The background is a deep purple and blue, suggesting the vastness of space. The overall structure is a dense, interconnected web of matter.
