**Title:** Immunochemical approaches to monitor and modulate the adaptive immune system

**Issue Date:** 2020-02-12

The background features a gradient from light green on the left to light blue on the right. On the left side, there are several stylized, pinkish-red, spherical cells with a textured, porous surface. On the right side, there are faint, light blue chemical structures, including a prominent Y-shaped molecule and a long-chain hydrocarbon-like structure.
