Development and validation of outcome prediction models for aneurysmal subarachnoid haemorrhage: the SAHIT multinational cohort study

 OPEN ACCESS

The authors of this paper (*BMJ* 2018;360:j5745, doi:10.1136/bmj.j5745) would like to acknowledge the contributions of researchers from the Swiss Study on Subarachnoid Haemorrhage (Swiss SOS):

- Bawarjan Schatlo, University Hospital Göttingen, Germany
- Christian Fung, Jürgen Beck, and Andreas Raabe, Department of Neurosurgery, University Hospital Berne, University of Berne, Switzerland
- Martin N Stienen, Jan-Karl Burkhardt, Emanuela Keller, and Luca Regli, Department of Neurosurgery, University Hospital Zurich and Clinical Neuroscience Center, University of Zurich, Switzerland
- Serge Marbacher and Javier Fandino, Department of Neurosurgery, Kantonsspital Aarau, Switzerland
- Daniel W Zumofen, Department of Neurosurgery, Department of Diagnostic and Interventional

Neuroradiology Section and Department of Radiology, Basel University Hospital, Switzerland

- Roy T Daniel and Rodolfo Maduri, Department of Neurosurgery, University Hospital Lausanne, Centre Hospitalier Universitaire Vaudois, Switzerland
- Michel Roethlisberger and Raphael Guzman, Department of Neurosurgery, Basel University Hospital, Switzerland
- Martin A Seule, Department of Neurosurgery, Kantonsspital St Gallen, Switzerland
- Thomas Robert and Michael Reinert, Department of Neurosurgery, Ospedale Civico Lugano, Switzerland
- Philippe Bijlenga and Karl Schaller, Department of Neurosurgery, University Hospital Geneva, Faculté de Médecine Genève, Switzerland
