The original version of this article was withdrawn by the authors. An error was discovered in the creation of the protein database file that was used for searching, which led to some incorrect associations between peptides and proteins. A corrected version of the manuscript has been supplied which contains the very similar peptide identifications as the original, but the resulting number of proteins in various categories has now changed, and as a result some of the figures and supplementary files have changed also. The underlying conclusions of this study, however, remain unaltered. The corrected version can be accessed (Shraibman, B., Barnea, E., Kadosh, D.
