Contents

Chapter 1: General introduction	7
Chapter 2: Optimal method for RNA extraction from mouse glomeruli <i>Nephrology Dialysis Transplantation 9(3):304-8, 1994</i>	33
Chapter 3: Distribution of fibronectin isoforms in human renal disease <i>Journal of Pathology 193(2):256-62, 2001</i>	43
Chapter 4: Alternatively spliced isoforms of fibronectin in immune-mediated glomerulosclerosis: the role of TGF-beta and IL-4 <i>Journal of Pathology 204(3):248-57, 2004</i>	55
Chapter 5: Fibronectin accumulation in glomerulosclerotic lesions: self-assembly sites and the heparin II binding domain <i>Kidney International 61(2):481-9, 2002</i>	73
Chapter 6: Gene expression profiling in glomeruli from human kidneys with diabetic nephropathy <i>American Journal of Kidney Diseases 43(4):636-50, 2004</i>	89
Chapter 7: Renal cortical and glomerular message for angiogenic factors is decreased in human diabetic nephropathy <i>Submitted for publication</i>	113
Chapter 8: Summary and General Discussion	133
Nederlandse Samenvatting	145
Curriculum vitae	151
List of publications	152
Naschrift	157
