**HIGH DOSE CHEMOTHERAPY AND AUTOLOGOUS
HEMATOPOIETIC STEM CELL TRANSPLANTATION FOR
RHEUMATOID ARTHRITIS.**

Robert J Verburg

**HIGH DOSE CHEMOTHERAPY AND AUTOLOGOUS
HEMATOPOIETIC STEM CELL TRANSPLANTATION
FOR RHEUMATOID ARTHRITIS.**

PROEFSCHRIFT

**Ter verkrijging van
de graad van Doctor aan de Universiteit van Leiden,
op gezag van de Rector Magnificus Dr. D.D. Breimer,
hoogleraar in de faculteit der Wiskunde en
Natuurwetenschappen en die der Geneeskunde,
volgens het besluit van het College voor Promoties
te verdedigen op woensdag 26 oktober 2005
klokke 16.15 uur**

door

**Robert Joop Verburg
Geboren te Den Haag in 1972**

Promotiecommissie

Promotor:	Prof. Dr. F.C. Breedveld
Co-promotor:	Dr. J.M. van Laar
Referent:	Prof. Dr. A. Tyndall (Rheumatologische Universitäts Klinik, Basel, Switzerland)
Leden:	Prof. Dr. J.D. Isaacs (University of Leeds, Leeds, United Kingdom) Prof. Dr. W.E. Fibbe Prof. Dr. R.R.P. de Vries

Omslag: L. Vreeken-Bos
Omslag lay-out: K.W. IJdema

ISBN-10: 9090198784
ISBN-13: 9789090198781

Contents

Chapter 1	Introduction and aim of studies Adapted from: High dose chemotherapy and autologous hematopoietic stem cell transplantation for rheumatoid arthritis; a review. <i>Human Immunology. 2002;63:627-637</i>	7
Chapter 2	High dose chemotherapy followed by autologous peripheral blood stem cell transplantation or conventional pharmacological treatment for refractory rheumatoid arthritis? A Markov decision analysis. <i>Journal of Rheumatology. 2001;28:719-727.</i>	19
Chapter 3	High dose chemotherapy and hematopoietic stem cell transplantation: a study of treatment preference in patients with rheumatoid arthritis and rheumatologists. <i>Journal of Rheumatology. 2002;29:1653-1658.</i>	43
Chapter 4	High dose chemotherapy and autologous hematopoietic stem cell transplantation in patients with rheumatoid arthritis: results of an open study to assess feasibility, safety, and efficacy. <i>Arthritis Rheumatism. 2001;44:754-760.</i>	59
Chapter 5	High dose chemotherapy and autologous stem cell transplantation significantly reduces the rate of joint damage in severe rheumatoid arthritis. <i>Arthritis Rheumatism. 2005;52:421-424.</i>	75
Chapter 6	The outcome of intensive immunosuppression and autologous stemcell transplantation in patients with severe rheumatoid arthritis is associated with the composition of synovial T cell infiltration. <i>Annals of Rheumatic Diseases.2005;64:1397-1405</i>	87
Chapter 7	IL-7 deficiency in rheumatoid arthritis: Consequences for therapy induced lymphopenia. <i>Arthritis Research & Therapy. 2005;7:80-92.</i>	111
Chapter 8	Long term follow-up of health status in patients with severe rheumatoid arthritis after high dose chemotherapy followed by autologous stem cell transplantation. <i>Arthritis Rheumatism. 2005;52:2272-2276.</i>	137
Chapter 9	Summary and discussion	149
	Samenvatting en discussie	159
	Publications	163
	Curriculum vitae	165
	Acknowledgements	167
