## **Curriculum Vitae**

Karin Wiefferink was born on the 22th of December 1959 in Denekamp. After finishing Atheneum B at Thij College in Oldenzaal in 1978, she started the in-service training for X-ray technician at the Teaching Hospital in Utrecht. After graduating in 1980, she started to study Dutch language and literature at the University of Utrecht in 1981. She graduated in 1987 and shortly after that she started working at the X-ray department of the Teaching Hospital of the Free University in Amsterdam as an X-ray technician. In 1989 she became in-service teacher of X-ray technician students at the same department. In 1991, she started to study Educational Sciences at the University of Amsterdam, where she graduated in 1995. Her research career started in 1993 at the research center primary-secondary health care, also in the Teaching Hospital of the Free University, first as a research assistant and in 1996 as a researcher. In 1999 she became a researcher at TNO, a research institute in Leiden, where she focused on implementation research and health promotion research. In 2007 she started as senior researcher at NSDSK, the Dutch Foundation for the Deaf and Hard of Hearing Child, where she conducted the research presented in this thesis.
