Celiac Disease

From Basic Insight to Therapy Development

Celiac Disease

From Basic Insight to Therapy Development

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus Dr.D.D.Breimer,
hoogleraar in de faculteit der Wiskunde en
Natuurwetenschappen en die der Geneeskunde,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 14 december 2006
klokke 15:00 uur

door

Dariusz Tomasz Stepniak

geboren te Koźuchów, Polen, in 1976

PROMOTIECOMMISSIE:

Promotor: Prof. Dr. F. Koning
Referent: Prof. Dr. C. J. J. Mulder (VUMC)
Overige leden: Prof. Dr. F. H. J. Claas
Prof. Dr. D. W. Hommes
Prof. Dr. E. J. H. J. Wiertz

The research described in this thesis was conducted at the Department of Immunohematology and Blood Transfusion of the Leiden University Medical Center.

This project was supported by the Netherlands Organization for Scientific Research (grant 912-02-028) and the Celiac Disease Consortium, an innovative cluster approved by the Netherlands Genomics Initiative and partially funded by the Dutch Government (BSIKo3009).

Publication of this thesis was financially supported by DSM Food Specialties, Astra Zeneca BV, Dr. Schär Ltd. , Nutricia Nederland BV and Dr. Ir. van de Laar Stichting.

Aan Marlana

They do certainly give very strange and newfangled names to diseases.

- **Plato.** *The Republic*, book III.

CONTENTS

Chapter 1	General introduction: Celiac disease - sandwiched between innate and adaptive immunity. <i>Hum Immunol.</i> 2006 Jun; 67(6): 460-8.	13
Chapter 2	Large-scale characterization of natural ligands explains the unique gluten-binding properties of HLA-DQ2. (<i>submitted</i>)	33
Chapter 3	T-cell recognition of HLA-DQ2-bound gluten peptides can be influenced by an N-terminal proline at p-1. <i>Immunogenetics.</i> 2005 Apr; 57 (1-2): 8-15.	59
Chapter 4	Characterization of cereal toxicity for celiac disease patients based on protein homology in grains. <i>Gastroenterology.</i> 2003 Oct; 125(4): 1105-13.	77
Chapter 5	No genetic association of the human prolyl endopeptidase gene in the Dutch celiac disease population. <i>Am J Physiol Gastrointest Liver Physiol.</i> 2005 Sep; 289(3): G495-500.	97
Chapter 6	Highly efficient gluten degradation with a newly identified prolyl endoprotease: implications for celiac disease. <i>Am J Physiol Gastrointest Liver Physiol.</i> 2006 Jun; 67(6): 460-8.	115
