#### Acknowledgements

It has been a long journey for me to finish this dissertation. During this journey, I came from being from a "young boy" to becoming a middle-aged man and was accompanied by many friends. Firstly, I would like to express my sincere gratitude to my promotor, prof. dr. H.J. Snijders and copromotor dr. J.A. van der Weide for their continuous guidance and support for my Ph.D. research at Leiden Law School. I will never forget the very intelligent and knowledgeable prof. Snijders' "slogan": "Think about it". I will always remember dr. Van der Weide's frequent encouragement: "Move forward, and never stop".

I would like to thank prof. W.H. van Boom, prof. A.G. Castermans, prof. J. Hijma, prof. B. Wessels, prof. W.G. Huijgen, prof. M. Haentjens, and dr. J. Nijland, who supported me a lot during my studies at Leiden Law School. I also want to express my gratitude for all the support I got from the late prof. H. Nieuwenhuis. Many thanks have to be conveyed to the kind secretaries of the Private Law Institute, Ms. Van Barneveld, Ms. Wessel, and Ms. De Mooij. Stephen Machon and Bard Jansen deserve my special acknowledgement for the wonderful proofreading of the draft and the translation of the summary into Dutch respectively.

I have to express my acknowledgement to those young and talented Ph.D. friends: Ewout, Hetty, Gitta, Stijn, Lotte, Thijs, Chalermwut, Ruben, Tobias, Ruth, Joris, Morshed, Jouke, Ross, Ilya, Dorine, Yizhong, Tu, Shuai, Xiang, Yudan, Xuechan, Linlin, Weidong, Quiyin, Wanlu, Dejian, Fengan, and Shaomei.... I not only had very pleasant academic discussions with you all, but also wonderful bicycle trips with some of you.

I would like to thank all my friends who I met in Leiden: Qingju & Xiao, Rui, Yingguang, Jia & Yu, Wenbo, Mengjie, Yongzhen, Xiaoting, Hanyu, Feng & Ling, Ciqing & Hui, Zhen & Junfei, Zhuang & Jiaxin, Jialong & Yiran, Liming, Dapeng, Puning, Siyou, Anran, and too many others to name. Without them, my life in Leiden would have been boring and colorless.

It is my great pleasure to acknowledge prof. Xu Diyu and prof. Zhang Jiayong, without whom I could not have worked and continued revising my dissertation in a nice library at ZUEL. Many thanks have to be expressed to dr. Liu Zhengfeng, without whose help I do not know how much more time I would have spent on my way home. I also need to sincerely thank prof. Huang Meiling, dr. Li Jun, prof. Li Hao, prof. Yuan Faqiang, prof. Hu Donghai, dr. Xia Haohan, dr. Chen Xiaomin and many other friends here and there.

I would like to express my deep and sincere acknowledgement to my parents and family for their support and understanding. In the end, much gratitude must be expressed to my wife Lily and daughter Duoduo, from whom I get infinite support, encouragement, and happiness.
