## **TABLE OF CONTENTS**

<b>Chapter 1</b>	<b>7</b>
General introduction and outline of the thesis	
<b>Chapter 2</b>	<b>27</b>
The burden of invasive aspergillosis in patients with haematological malignancy: a meta-analysis and systematic review	
<b>Chapter 3</b>	<b>51</b>
Relapsed and secondary disease drive the risk profile for invasive aspergillosis prior to stem cell transplantation in patients with acute myeloid leukemia or myelodysplastic syndrome	
<b>Chapter 4</b>	<b>65</b>
A new time-dependent approach for assessment of the impact of invasive aspergillosis on short- and long-term survival of patients with haematological malignancy	
<b>Chapter 5</b>	<b>99</b>
Managing invasive aspergillosis in haematological patients in the era of resistance PCR and increasing triazole resistance: a modelling study of different strategies	
<b>Chapter 6</b>	<b>99</b>
Outpatient Parenteral Antifungal Therapy (OPAT) for invasive fungal infections with intermittent dosing of liposomal amphotericin B	
<b>Chapter 7</b>	<b>115</b>
Validation of a clinical decision rule for selecting empiric treatment for invasive aspergillosis in a setting with high triazole resistance	
<b>Chapter 8</b>	<b>133</b>
Summary and general discussion	
<b>Nederlandse samenvatting</b>	<b>147</b>
<b>Curriculum Vitae</b>	<b>157</b>
<b>Nwoord</b>	<b>161</b>
<b>List of publications</b>	<b>165</b>
