The research described in this thesis was performed at the division Analytical BioSciences of the Leiden Academic Centre for Drug Research (LACDR), Leiden University (Leiden, The Netherlands). The research of chapter 2 and chapter 3 was financially supported under the Crack-it challenge 15 (Nephrotube) project no. 37497–25920, an initiative of the NC3Rs. The printing of the thesis was financially supported by Mimetas.
