Datafile to the article "**The Relationship between LGBT Inclusion and Economic Development: Macro-Level Evidence**"
by M.V. Lee Badgett, Kees Waaldijk, and Yana van der Meulen Rodgers (as published in 120 ***World Development*** 2019, p. 1-14)

The 2019 article, and the Excel version of the accompanying datafile appendix reproduced below, are both **available in open access** at https://doi.org/10.1016/j.worlddev.2019.03.011
The **provisional 1966-2011 data of GILRHO** (the *Global Index on Legal Recognition of Homosexual Orientation*) were first published in the appendix to that article.
Below, these provisional GILRHO data 1966-2011 can be found in **column E, under "GILRHO" / "lawkindex"**. In this index, countries can have 0 to 8 points.

Note: Kees Waaldijk is the author and owner of the GILRHO data (*Global Index on Legal Recognition of Homosexual Orientation*);
the GILRHO data were created by Kees Waaldijk at Leiden University on the basis of constantly improving versions of a legal dataset originally presented in Waaldijk (2009) as cited below:
Waaldijk, Kees (2009). *Legal recognition of homosexual orientation in the countries of the world: A chronological overview with footnotes*. Paper for the conference The Global Arc of Justice. Los Angeles, CA: The Williams Institute.
Available at: http://hdl.handle.net/1887/14543

GILRHO is still work in progress; this provisional 2014 version of the GILRHO dataset (covering 1966-2011) is subject to further corrections and updates;
more information about the sources and construction of GILRHO is provided in the report in which GILRHO was first presented (Badgett et al. 2014, p. 28-31 and 57-64) as cited below:
